<b>Self Check Inventories</b>	<p>The Self-Check Inventory (SCI) subgroup's purpose is to develop one or more Self-Check Inventories. The SCI subgroup grew out of the Addressing Predatory Behavior working group in the interest of developing tools for discovering one's own participation in a possible predatory dynamic with another member(s) before, during or after an ACA Meeting. The current Purpose includes an intent to post one or more Self-Inventories on the Addressing Predatory Behavior webpage and announce such posting in the Traveler. The group has no working drafts or working outlines at this time as it is in its formative stages. (This report was simultaneously provided by SCI to Literature Committee at the request of Literature Committee.)</p>
