

Young Adults and Teen Subcommittee (YA&T) January report

January 2020, the Young Adults and Teen Subcommittee

We are slowly developing into an ACA resource clearinghouse for teens and young adults. We are gathering information and inviting speakers to share their experience. This helps with the development of ACA Teen and Young Adult meetings. We are seeking fresh ideas on the monthly subcommittee teleconference.

We are operating around central questions.

- ❖ What do we need to make the ACA program known - or better known - among teens and young adults?
- ❖ How can we attract teens and young adults to ACA?
- ❖ How can we be of assistance to teens and young adults?

Every 3rd Wednesday of the month 7pm UTC/2pm ET
<https://zoom.us/j/446358110>

January Report

- Marc, Chair of YAT, received some suggestions for how to write new literature, use cartoons to explain current literature.
- We are fielding the suggestions from the members who are actually working with teens. A working group is collaborating to develop new literature in a language easily understood by teens.
- We started with creating a trifold for teen outreach.
- In the near future we are going to create a teen program for schools based on H & I. The reason is that teens see schools as restrictive.

This is what we have achieved in the month of January, 2020.

The call on January 15 at 9 pm (21:00) UTC
