

## **OPPM Committee**

Report for the month of May, 2020

We met once in May after taking some time off.

Our work is currently focusing on further helping to define Section X. Committees, including the types of committees and responsibilities.

We decided to go back to more of a system of notating individual changes with a corresponding note in the new Change Log at the end of the document, rather than adding footnotes as has been done in the past 3 years.
