#### **Statement of Purpose**

---

The committee is developing a concise statement of purpose. A complete description of our work may be found in the OPPM.

#### **Recent Activity, of Note**

---

We are willing to tailor our calendar and activities to conform with any changes or additions to the ABC format, such as a third day of conferencing. Hearing no call for change to the ballot process, we are following last year's routine, adapting where preferable. There are no major changes anticipated.

We are developing a communication campaign – the announcements (content and timing) for the coming year. We will utilize the Traveler, Comline, direct mailings and our committee webpage.

We are actively looking for more committee members, especially those who may be a part of underrepresented communities. In doing so, we have reached out to our personal contacts as well as REA and the Global Committee.

#### **For The Month Ahead**

---

The first step in the ballot process is the Call for Proposals and the workshops which aid in the proposal writing process. This will be our focus through September. For the month ahead we will look at the schedule and the communications plans.

We are considering a survey of groups to better understand how they participate in the ballot process – how they receive information, how and when they deliberate, how they work with their Delegates.
